IC/82/3392
9 April 1982

MEMORANDUM FOR: Deputy Director of Central Intelligence

FROM: Walter Elder
Executive Secretary

SUBJECT: Revised Draft DCI Directive for COMIREX

1. Action Requested: That you review the attached revised DCI directive for COMIREX and approve its circulation to the Committee members for their comments.

2. Background: The revisions result from consultation among the Chairman, COMIREX, the Chairman, Security Committee, and the Executive Secretary, NFIB/NFIC.

The changes seek to simplify and to make more clear the special responsibility of COMIREX for tasking the collection, processing, and exploitation of imagery. In the case of paragraph j, the roles of the Security Committee and COMIREX are clarified along the same lines followed in revising the SIGINT Committee directive.

A copy of the existing directive is attached for your ready reference.

The revision of the directive can also be the occasion for reviewing the functions of COMIREX, or this can be the subject of an independent action.

For your information, this and all other revised directives are vetted by OGC.
